SKILLS

AI Engineering

`LLM Integration`
`Prompt Engineering` `RAG`
`Fine-tuning` `AI Agents`

Full-Stack

`TypeScript` `React` `Next.js`
`Node.js` `Python` `PostgreSQL`
`Prisma` `REST / GraphQL`

Infrastructure

`Docker` `Azure` `CI/CD` `Vercel`

Testing & QA

`Playwright` `E2E Automation`

LANGUAGES

German	Native
English	Fluent
Korean	Conversational

INTERESTS

Hiking & Running / Cooking / Tech Trends / Gaming

● Open to opportunities

Felix Schoberwalter

Fullstack Developer & AI Engineer

PROFILE

Full-stack developer with a strong focus on AI engineering and process automation. I've been building with LLMs since GPT-3 — from fine-tuning small models locally to shipping production AI pipelines in enterprise settings. On the side, I built and launched MultiSub, a SaaS platform with 3,000 users. My approach to engineering: understand the real-world problem first, then pick the right tools to solve it. With AI-assisted development becoming my daily workflow, I focus on system thinking and end-to-end ownership rather than being tied to a single stack.

EXPERIENCE

Working Student Software Engineering
Aug 2025 — Present

Janitos Versicherung AG · Heidelberg, Germany

> Redesigning the input management system for automated document classification in insurance workflows
> Integrating an external AI platform into existing processes for intelligent data enrichment and pre-processing
> Co-designing database schema and development workflows across the engineering team

Working Student Software Engineering — AI Team
Apr 2024 — Dec 2024

Osapiens Holding GmbH · Mannheim, Germany

> Built a production AI pipeline for automated NACE code classification using Hugging Face models and LLMs — from Python prototype to TypeScript integration into the existing platform
> Developed internal AI tooling for automated data extraction and structured document processing

Intern Software Engineering
Sep 2023 — Mar 2024

Osapiens Holding GmbH · Mannheim, Germany

> Contributed production-ready frontend and backend code across multiple web projects in a large-scale enterprise platform

IT Generalist
May 2022 — Dec 2022

humanaize · Berlin, Germany

> Technical administration and early software development in a startup environment

Exam Supervisor
Oct 2019 — May 2022

Certible · Germany & Europe

> Coordinated and supervised certification exams across national and international locations

EDUCATION

B.Sc. Business Information Systems (Wirtschaftsinformatik)
Hochschule Mannheim · 2022 — 2026 · Thesis pending

Business Administration (not completed)
Hochschule Kaiserslautern, Campus Zweibrücken · 2016 — 2018

Higher Education Entrance Qualification — Business & Economics
Fachoberschule Dahn · 2013 — 2015

PROJECTS

MultiSub ↗

AI subtitle platform with 3,000+ users — built solo. LLM-powered translation, subtitle optimization, and language learning features

Next.js · LLM APIs · Stripe · PostgreSQL

Grace Piano ↗

Portfolio and booking site for a music teacher and concert pianist

Next.js · Tailwind CSS
